# FICCI-PMI Conference on Project Management Practices 2015

*Project Management – The impetus for Make in India*

March 10, 2015

Federation House, New Delhi, India

# FICCI-PMI Conference on Project Management Practices 2015

While project management practices do vary with size and complexity of the project, certain basic principles will hold true for ensuring success of most large projects. Considering the fact that time and cost overruns, and projects getting stalled are such a common occurrence in contemporary India, there is an urgent need for us to understand the principles and practices behind successful projects, and implement sound project management practices for effective project delivery.

FICCI is holding a Conference on Project Management Practices in partnership with Project Management Institute (PMI), India. The conference will focus on case studies which exemplify application of project management practices to address the critical challenges of project management.

## Conference Highlights

- Role of Project Management Office (PMO) in removing bottlenecks for stalled projects
- Institutionalizing Crisis Resolution processes for large programs
- Building Project Management Capabilities in Government
- Quality of Stakeholder Engagement and Risk Management imperatives in large projects
- Ensuring Project Management Expertise of executing agencies and sub-contractors
- Project Management in the new age of technology

## Conference Program

- Inaugural Session
- Panel Discussion by well known experts
- Presentations by field practitioners
- Best Presentation & Poster Awards

## Target Audience

- Government Officials/Policy Makers
- Project and Program Management Practitioners from Government and Industry
- Certified Project Management Professionals
- Training/Consulting Organizations
- Development and Multilateral Agencies
- Non-Government Organizations
- Independent Consultants
